

Visit to Roletarstvo Medle

20 May 2026

The Chamber of Commerce and Industry of Dolenjska and Bela krajina (GZDBK) organizes numerous forums, company visits, and exchanges of good business practices among companies, entrepreneurs, and other organizations. The executive boards of each professional section within the regional chamber prepare their own annual activity programs, and as part of these programs, each section also promotes the exchange of best practices through company visits. This time, the Human Resources Management Section (SRČV) organized a visit to the company Roletarstvo Medle d.o.o.

Roletarstvo Medle is the leading manufacturer of roller shutters and blinds in Slovenia, setting the pace of development in the shading solutions industry and establishing standards in its field since 1976. As a family-owned company, it prides itself on its in-house production of roller shutters, blinds, and key components, enabling a high level of flexibility and the delivery of top-quality products. The company employs 190 people and builds its organizational culture on the values of honesty, responsibility, trust, competitiveness, and sustainability. For its employee management practices, the company received the “Exemplary Human Resources Management Practice 2024” award from the Chamber of Commerce and Industry of Dolenjska and Bela krajina.

At the beginning of the event, the company’s management welcomed the visitors. Following the introductory address, participants toured the production facilities, where they became acquainted with the company’s modern manufacturing processes, work organization, and technological solutions.

The program continued with a presentation of the company’s organizational structure, the work of the HR department, employee management practices, and the company’s social responsibility toward the environment in which it operates. Special emphasis was placed on organizational culture, employee care, and the development of sustainability-oriented processes.

After the professional part of the event, a meeting of the Human Resources Management Section (SRČV) was held, focusing on reviewing the section’s activities and strengthening connections among members. The continuation of the SRC-EDIH 2.0 project activities was also presented. The project promotes the digital transformation of companies, the development of employee competencies, and the strengthening of an innovative support environment in the region. Participants were informed about opportunities to engage in project activities and about the benefits the project offers companies in implementing modern digital and organizational solutions.

The visit concluded with an exchange of opinions, insights, and experiences during a networking reception.

You are also invited to view photo highlights from the event.

Membership in the Human Resources Management Section (SRČV) is free of charge for all employees of companies that are members of GZDBK.
