

Knowledge into Industry: 19th International Technology Transfer Conference

16 September 2026

On Wednesday, 7 October 2026, Novo mesto will host the **19th International Technology Transfer Conference (ITTC)**, bringing together representatives of research organisations, industry and the business support ecosystem to explore how knowledge can be transferred into industry more effectively.

The conference will focus on co-creation between industry and academia to improve knowledge valorisation. The programme will include presentations by Paul Maguire (TU Dublin) and Tomaž Blatnik (Revoz Novo mesto).

This will be followed by a round-table discussion featuring Paul Maguire (TU Dublin), Mito Žnidarko (ARIS), Tomaž Blatnik (Revoz Novo mesto) and Nina Šab, MSc (Chamber of Commerce and Industry of Dolenjska and Bela krajina).

The programme will also feature a competition for the best innovation with commercial potential, the presentation of national WIPO awards, and scientific papers on technology transfer and intellectual property. The day will conclude with networking.

The conference will take place in the atrium of the Miran Jarc Library in Novo mesto. Advance registration is required.
