

15th Dolenjska and Belokranjska IT Conference: opportunities and risks of using AI tools in work and business

23 April 2024

From 9.00 to 13.00

Location: Faculty of Information Studies in Novo mesto, Ljubljanska cesta 31a, 8000 Novo mesto.

Participation is free of charge, but prior registration is required:

[eREGISTER](#)

The Conference is organised by the Section for Informatics in cooperation with the Faculty of Information Studies in Novo mesto (FIŠ).

The Conference will address the opportunities and risks of using Artificial Intelligence (AI) tools in work and business.

Artificial Intelligence brings us many innovations in business and life, but also risks and challenges. We will explore with eminent speakers how we can reap the benefits and avoid the pitfalls of using the cutting-edge tools we already face today.

We look forward to your participation and knowledge sharing at the Conference. May the day be inspiring and constructive for the further development of both you and your profession!

You are cordially invited!

Content:

9.00 - Opening address

9.10 - Advantages and dangers of using new artificial intelligence tools

9.55 - Challenges people face when using AI tools in their work

10.40 - Break
