[More about GZDBK membership >](#)

The event is organised by the [Section for Quality](#).

The aim and objective of the annual professional day of the Section for Quality is to reveal the situation faced by the economy in ensuring the quality of operations within each company. Quality assurance in all company processes is a permanent and systematic work that continuously pushes quality departments to optimise and adapt to influences within and outside the company.

You are cordially invited!

14.40 Conclusion

Section for Quality (SK) operates within the GZDBK as a professional working body. The SK acts as a facilitator and organiser of activities in the field of quality. In this context, the Section's primary role is to promote and facilitate activities to improve the quality of products, services and processes and measures for ecological production, while at the same time bringing together companies in the field of quality. By promoting integrated quality management, the Chamber offers its members support, exchange of knowledge, practical examples, opinions and ideas.

Additional explanations: Nina Šab, MSc, 07 33 22 185, nina.sab@gzdbk.si.

The event takes place as part of the [SRC-EDIH project](#).
