

26th Quality Day: Systemic Challenges of Quality in the Era of Digitalization and Cybersecurity

11 December 2024

At 11.00.

Location: Hotel Center, Glavni trg 23, Novo mesto

[e-Application form](#)

Applications are accepted until the available places are filled. Members of GZDBK have priority when occupying places.

This event is organised by the Section for Quality of the GZDBK.

The purpose and objective of the annual professional day of the Section for Quality is to address the current challenges and opportunities facing the economy in ensuring quality in the operation of companies. Total quality management is not just a technique, but a strategic approach that involves optimising processes, adapting to modern trends and innovatively addressing challenges.

This year, we will pay particular attention to the digitisation of work processes, cyber security and the role of management systems in meeting the challenges of the future. We will also explore concrete examples of successful implementation of advanced tools for business and quality improvement and highlight new developments and trends in ISO 9001. You are cordially invited.
