

EDIH CROBOHUB++ from Zagreb

Date: June 30, 2025

Time: 10:00 AM – 2:30 PM

Location: Zagreb

In light of the challenging economic environment, geopolitical tensions, and global competition, companies are facing increasing challenges. To succeed, it is essential to tap into internal resources and become more innovative, driven, and adaptable.

The Chamber of Commerce of Dolenjska and Bela krajina (GZDBK) supports small and medium-sized enterprises (SMEs), entrepreneurs, and public organizations in adopting digital technologies with the help of European Digital Innovation Hubs (EDIHs), which operate across borders. The aim is to provide access to knowledge, tools, and services that support digital transformation, regardless of geographical boundaries. This includes consulting, technology testing, connecting with research institutions, and assisting in securing funding for digital projects.

At the event, we will explore the opportunities offered by the **EDIH CROBOHUB++ project from Zagreb** and also present the activities and opportunities of the **SRC-EDIH project from Novo mesto**.

For more information:

Mag. Nina Šab – +386 7 33 22 185 – nina.sab@gzdbk.si

The service **Support to SMEs or public organizations digitalization from cross-border EDIHs** is provided as part of the [SRC-EDIH project](#).
