

EDIH Adria from Rijeka

Date: July 1, 2025

Time: 10:30 AM – 2:30 PM

Location: Rijeka

In light of the challenging economic situation, geopolitical tensions, and global competition, companies are facing increasing pressures. To succeed, it is essential to tap into internal resources and become more innovative, agile, and adaptable.

The Chamber of Commerce of Dolenjska and Bela krajina (GZDBK) supports small and medium-sized enterprises (SMEs), entrepreneurs, and public organizations in adopting digital technologies through the assistance of European Digital Innovation Hubs (EDIHs), which operate across borders. The aim is to provide access to knowledge, tools, and services that facilitate digital transformation, regardless of geographic boundaries. This includes consulting, technology testing, connecting with research institutions, and helping organizations secure funding for digital projects.

At the event, we will explore the opportunities offered by the **EDIH Adria project from Rijeka** and also present the work and opportunities of the **SRC-EDIH project from Novo mesto**.

For more information:

Mag. Nina Šab – +386 7 33 22 185 – nina.sab@gzdbk.si

The service **Support to SMEs or public organizations digitalization from cross-border EDIHs** is provided within the framework of the [SRC-EDIH project](#).
