

# 1st meeting of the executive committee of the Section for Innovation in 2026

18 February 2026

At 13.00.

Location: GZDBK meeting room (2nd floor, Novi trg 11, Novo mesto)

The Executive Committee ([IO SINO](#)) is the working body of the Section for Innovation (SINO) at GZDBK.

## [Membership application form for SINO >](#)

Membership in professional sections of the GZDBK is free for employees of a company that is a member of the GZDBK.

GZDBK has six professional sections!

Each section includes:

- An executive board (IO)
- A section president
- An annual assembly of members
- An annual professional day
- Forums on successful business practices (visits to companies in the region and beyond)
- Other events and activities (projects, awards, recognitions), tailored to the actual needs of the respective professional section.

The agenda will also cover the SRC-EDIH project.

Membership in a professional section is beneficial for both employees and the companies they work for. Membership is free for employees of companies that are GZDBK members.

Executive boards (working bodies of the professional sections) hold 3 to 5 working meetings per calendar year. During these meetings, they determine the program and implementation of the work of the professional section.

Companies that are GZDBK members can propose their representative (employee) for appointment to the executive board of a specific professional section, thereby directly participating in shaping and executing the section's work program.

The event takes place as part of the [SRC-EDIH](#) project.
