

16th Human Resources Management Day: The Future of the Labour Market and HRM (Change, Artificial Intelligence and the Role of HR)

The Chamber of Commerce of Dolenjska and Bela Krajina (GZDBK) organized the 16th Human Resource Management Day titled "The Future of the Labor Market and HRM (Changes, Artificial Intelligence, and the Role of HR Professionals)" on October 12, 2023, at Otočec. The opening of the day was greeted by the Chair of the Section for Human Resource Management, Nina Nikić from Adria Dom, and the Manager of GZDBK, Tomaž Kordiš. This was followed by a lecture by Saša Boštjančič, the Director of MOJA ZAPOSILITEV and the owner of the OPTIUS job portal, on "The Future of the Labor Market and HRM: Changes, Artificial Intelligence, and the Role of HR Professionals."

A workshop titled "Agility in HRM: ChatGPT, Our New Colleague?" followed, where participants explored the impact of artificial intelligence on HR work through group activities. The workshop was conducted by Janja Milič Velkaverh, MSc, a consultant for raising agility and creativity, and co-founder of AGILIA, a consulting and education center. The contributions of the speakers are available at the following [link](#).

During the ceremonial part of this year's Human Resource Management Day, Mag. Marko Gorjup, President of GZDBK, presented two awards: "AWARD FOR AN EXEMPLARY CASE OF HUMAN RESOURCE MANAGEMENT OF GZDBK FOR 2022." The first award was presented to ISKRA PIO, d. o. o., and received by Andraž Rumpert, the company's director and owner. The second award was presented to Boris Bukovec, PhD, for his contribution to the development of higher education and collaboration with the business sector. Congratulations to the award recipients!

The event was hosted by the virtual avatar Rok and Ajda Vesel, the host of the Info Studio for Dolenjska, Posavje, and Bela Krajina at Media24.

A musical performance during the award ceremony was provided by the Lipičnik Music School.

You can view highlights of the day in the photo gallery.

The event takes place as part of the [SRC-EDIH project](#).
