

Meeting of the Executive Committee of the Section for Environment and Energy

The final working meeting of the Executive Committee of the Section for Environment and Energy (IO SOE) was held in the conference room of the Chamber of Commerce of Dolenjska and Bela krajina (GZDBK) at Novi trg 11, Novo mesto, between 13.30 and 15.30. The event is an important exercise in planning and guiding the activities of the Section, its key issues and tasks for the coming year. A careful study of the past activities of the Section allows for a consistent pursuit of the set objectives and their effective implementation.

The meeting was chaired by the President of the Section, Slavko Zupančič from Krka, d.d., Novo mesto, with the following agenda; Review and approval of the minutes of the last meeting, development of the Section's programme of activities in 2024, setting the date and location of the 1st SOE IO meeting in 2024 and the Annual Meeting, and other activities of the Section (discussion of additional topical issues discussed by the members at the meeting).

The SOE IO Meeting is a working body of the Section for Environment and Energy, which operates within the framework of projects focused on sustainable development in the environment and energy sector. The SRC-EDIH project, which will be discussed during the meeting, is also highlighted in this context. Section for Environment and Energy (one of the six Sections) operates within the GZDBK and includes an Executive Committee, a Section Chair, an Annual Members' Assembly, an Annual Professional Day, Best Business Practice Forums and various events and activities tailored to the needs of the Section. Membership of the Section is free of charge for employees of GZDBK member companies.

For further clarifications, please contact Nina Šab, 07 33 22 185, nina.sab@gzdbk.si.

The event takes place as part of the [SRC-EDIH project](#).
