

Opening of the GZDBK Innovation Exhibition 2023

In recent years, the Chamber of Commerce of Dolenjska and Bela Krajina has devoted a lot of activity to promoting innovation culture in the region. At the same time, we have made it possible to present to the general public all the innovations that are the result of local know-how. In the 16 years of our calls for tenders, innovators have submitted 331 innovations and during this period we have awarded 117 gold, 156 silver, 44 bronze and 14 awards to innovators.

The Chamber of Commerce of Dolenjska and Bela Krajina is pleased to note that we are the most successful region in Slovenia in terms of the number of innovations submitted. The results of investments in development and innovation are thus excellent indicators of the performance of companies in the Dolenjska-Belokranjska region, which is also reflected in the region's annual business results.

This year, for the 16th consecutive year, the Chamber of Commerce of Dolenjska and Bela krajina collected innovation proposals and selected among them those that received the awards for the best innovations of Dolenjska and Bela krajina for 2023. The 8-member jury, based on the information provided in the applications and the presentation of the innovation proposals by the applicants, judged that 12 innovations deserved a gold award, 16 a silver award and 2 a bronze award. The five best-ranked GZDBK innovations will compete for the highest national awards.

After years of successful and effective innovation promotion, the GZDBK has decided to hold the first GZDBK Innovation Exhibition in 2021 on the Main Square in Novo mesto. The excellent response after the exhibition further encouraged us to present innovations, innovators and innovators to the wider public for the third time in a row.

The exhibition opened on Wednesday, 5 July 2023 and will be on display until 31 July 2023 at the Main Square in Novo mesto. You are welcome to visit.
