FerroČrtalič is a modern, reputable and globally successful family business with a 60-year tradition. They develop advanced and quality solutions for demanding customers and produce machines for surface treatment technologies through the registered trademark FerroECOBlast Europe. They address solutions for the most demanding challenges in the surface treatment industry. They are located in the heart of Europe, in the territory of the most innovative technical know-how. They provide customers from all over the world with the best possible surface treatment solutions. Continuous improvement, state-of-the-art equipment, research and innovation add value to the company and to customers. Their main strengths are their highly-educated team with high-tech know-how, extensive experience, specialisation, research, customisation (meeting customer needs and expectations) and being a reliable and trustworthy partner. They are distinguished by a quality team of employees who ensure the company's success and development in a very demanding industry.

The Executive Committee ([IO SK](#)) is the working body of the Section for Quality ([SK](#)) at GZDBK.

[Membership application form SK>](#)

Membership in professional sections of the GZDBK is free for employees of a company that is a member of the GZDBK.

The GZDBK has six sections.

Each section has:

- Executive Committee,
- a Section Chair,
- an annual meeting of members,

- an annual professional day,
- forums on successful business practices (visits to companies in the region and beyond); and
- other events and activities (projects, awards, recognition), tailored to the actual needs of each Section.

The SRC-EDIH project is also discussed during the meeting.

Membership of a Section is beneficial for both the employees and the companies they work for. Membership of the sections is free of charge for the employees of a company that is a member of the GZDBK.

The executive committees (working bodies of the sections) hold between 3 and 5 working sessions per calendar year. At the working sessions, they determine the programme and the implementation of the work of the section.

The companies that are members of the GZDBK can nominate a representative (employee) for appointment to a position on the executive committee of each section and thus participate directly in the formulation and implementation of the work programme of the section.

Additional explanations: Nina Šab, MSc, 07 33 22 185, nina.sab@gzdbk.si.

The event takes place as part of the [SRC-EDIH project](#).
