

Section for Informatics (SI) visited PIP

Section for Informatics (SI) visited Business Incubator Podbreznik (PIP). The president of the section, Andrej Železnik from the company TEM Čatež, d. o. o., informed those present about the work of the section in the past and the work program for the future. Among other things, he pointed out that the publicly available materials of all SI's annual expert consultations are available at: <https://www.gzdbk.si/si/sekcije/si/dan/>. This was followed by a speech by Tomaž Kordiš, manager of GZDBK, about the state of Slovenia in the field of digital transformation and the culture of innovation that the future dictates to society (not only to companies).

The hosts, the Business Incubator Podbreznik and the Public Research Institute Rudolfovo, spoke to those present about Technological challenges for the economy - a regional approach in SE Slovenia and the opportunities that the SRC-EDIH project brings to us (Franci Bratkovič, director of the Development Center Novo mesto), about advanced digital technologies of the Rudolfovo institute (Janez Povh, director of the Public Research Institute Rudolfovo) and about Industry 4.0 technology: presentation and practical demonstration in the test environment of the SRC-EDIH project (Marko Rudolf from the Development Center Novo mesto and the Public Research Institute Rudolfovo). Those present saw the technologies they have and offer to the environment in Labtop, a laboratory for the factories of the future.

The event takes place as part of the [SRC-EDIH project](#).
